

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW MINOR USE OF AN AGVET CHEMICAL PRODUCT
FOR CONTROL OF TWO-SPOTTED MITE ON MAIZE AND POPCORN**

PERMIT NUMBER – PER81373

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 18 AUGUST 2015 TO 30 NOVEMBER 2021.

Permit Holder:

MAIZE ASSOCIATION OF AUSTRALIA
C/- Farm 1576
YANCO NSW 2703

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Product to be used:

TITAN ABAMECTIN 18 INSECTICIDE/MITICIDE (65889)
PLUS OTHER REGISTERED PRODUCTS
Containing: 18 g/L abamectin as their only active constituent.

VANTAL UPGRADE MITICIDE/INSECTICIDE (67524)
PLUS OTHER REGISTERED PRODUCTS
Containing: 36 g/L abamectin as their only active constituent.

Directions for Use:

| Crop | Insect Pest | Rate |
|------------------|--|--|
| MAIZE POPCORN | Two-spotted mite (<i>Tetranychus urticae</i>) | Abamectin 18g/L product 300 mL product / ha Abamectin 36g/L product 150 mL product/ha |

Critical Use Comments:

- Apply during final stages of crop development when mites become a problem causing early drydown.
- Monitor crops regularly and apply when 10 or more mites are observed per leaf.
- Apply in sufficient volume to penetrate the plant canopy and evenly cover plant surfaces.
- For aerial spraying, apply in a minimum water volume of 30 L/ha.
- Allow at least 7 DAYS between applications (if required).
- DO NOT apply more than two (2) applications per crop.

Withholding Period:

Harvest:

DO NOT harvest for 28 DAYS after final application.

Grazing:

DO NOT allow livestock to graze or cut for stock food for 28 DAYS after final application.

Observe restraints and restrictions for tank mix products.

Jurisdiction:

ALL STATES except VIC.

Note: Victoria is not included in this permit because their 'control-of-use' legislation means that a permit is not required to legalise this off-label use in that state.

Additional Conditions:

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the Details and Conditions of this permit.

This Permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Export of treated produce:

To allow produce from treated plants to be supplied or otherwise made available for human consumption the APVMA has established a temporary Maximum Residue Limit (MRL) for abamectin on maize at T*0.01mg/kg. This limit applies only to produce marketed and consumed in Australia. If treated produce is to be exported, due account should be taken of the residue definition and residue limits/import tolerances of importing countries, and that any residues must not exceed those requirements of the importing country.

Issued by the Australian Pesticides and Veterinary Medicines Authority.

Note: Version 3 issued (22nd August 2018) to extend the expiry date to 30 November 2021.
